Summary

Full Stack Developer with experience in building scalable web applications using React.js, Next.js, Angular, Node.js, Express.js, and NestJS , a little laravel. Skilled in developing responsive user interfaces, designing RESTful APIs, implementing authentication and authorization, and working with both SQL and NoSQL databases. Currently studying at the Information Technology Institute (ITI) – Open Source Track, focusing on software development, problem solving, and real-world projects.

Education

• 9 Month Diploma at Information Technology Institute (ITI) *2026-07*

Open Source Trach (Mern Stack), Menofia Branch

•Bachelor of Technology in Computer Science from Modern Academy in maadi *2025-06*

GPA: 2.8

Personal Projects

•Market

Demo | GitHub

A full-stack e-commerce web application featuring user authentication, product management, shopping cart functionality, and an admin dashboard with a responsive and modern user interface.

- Developed secure user authentication and role-based authorization using JWT, with protected routes for admins and members.
- Built RESTful APIs for product, category, and cart management, integrated with a MongoDB database and consumed by a responsive React frontend.
- Implemented product browsing, searching, filtering, and shopping cart features with seamless client-server communication.
- Technology Used: React.js, Redux Toolkit, Tailwind CSS, Material Tailwind, Axios, Node.js, Express.js, MongoDB, Mongoose, JWT, Bcrypt, Vercel.

•Chat_App

Demo | GitHub

Real-time Chat Application (WhatsApp Clone) that enables users to send instant messages, authenticate securely, and communicate seamlessly across multiple languages, Built with a full-stack architecture including image sharing, API documentation, and real-time communication via Socket.io, deployed live on AWS EC2.

- Built a secure authentication and user management system using Clerk with protected routes for authorized access.
- Implemented real-time messaging using Socket.io, multi-language support with i18next, and media sharing with Multer and Cloudinary integration.
- Developed a scalable RESTful API using Express.js and MongoDB with Mongoose, and documented all endpoints using Swagger.
- Technologies: React, Vite, Express.js, MongoDB, Mongoose, Socket.io, Clerk, Cloudinary, Multer, Swagger, Tailwind CSS, i18next.

Freelancing Experience

•Responsibilities and Achievements *May - July 2024*

Full Stack Developer on Upwork Upwork

- Developed and maintained full-stack web applications for conference management using React.js and Node.js technologies.
- Designed and integrated RESTful APIs to support dashboard functionality and real-time data management.
- Built responsive and user-friendly dashboards for monitoring and managing various services.
- Implemented authentication and authorization mechanisms using JWT-based security workflows.
- Managed application state using Redux Toolkit and integrated frontend services with backend APIs.
- Worked with databases to store, retrieve, and manage application data efficiently.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend: Next.js, React.js, Angular, Redux Toolkit, TanStack Query (React Query), React Router, Axios
Backend: Node.js, Express.js, NestJS
Databases: PostgreSQL, MySQL, MongoDB
ORM / ODM: Mongoose
API & Documentation: REST APIs, Swagger, Postman
DevOps & Deployment: Docker, Git, AWS (EC2), Linux, Vercel, Netlify, Render, Railway
Authentication & Security: JWT, Passport.js, Google OAuth, GitHub OAuth, Clerk, RBAC, Bcrypt
Realtime Communication: Socket.IO, WebSockets
UI / Styling: Tailwind CSS, Bootstrap, Material Tailwind, Material UI, Shadcn/UI, SweetAlert2
File Handling & Media: Multer, Cloudinary
Internationalization (i18n): i18next, react-i18next
Design to Code: Figma to Responsive UI Conversion
Tools & Version Control: Git, GitHub, VS Code, Figma, Vite
Language Proficiency: English (intermediate, Written & Verbal), Arabic (Native, Fluent, Written & Verbal)
Relevant Coursework: Data Structures & Algorithms, Operating Systems, Object Oriented Programming, Database Management Systems, Software Engineering
Soft Skills: Problem Solving, Attention to Detail, Communication, Collaboration, Self-learning, Adaptability, Teamwork, Time Management

Trainings and Courses

– **Go Web Front-End Development** *2024-08*
– **Google Developer Students Clubs (GDSC NYCU) at Modern academy** *2025-01*

Languages

–**Arabic:** Mother Tongue
–**English:** Intermediate

Personal Information

–**Full Name:** Amir Ahmed Said Soliman Mohamed Whdan
–**Date of Birth:** 11-03-2003
–**Nationality:** Egyptian
–**Military Status:** Completed
